Matched Government Schemes & Benefits

Authority: National Trust (Govt. of India)

Provides health insurance coverage up to ■1 Lakh. Nominal annual premium required.

Authority: Kerala Social Security Mission

Financial aid and therapy support.

AI Matching Interpretation

Here's an explanation of the recommended schemes for Anu: 1. **UDID Card (Unique Disability ID)** **Why it matches:** Anu has 'Autism Status: Yes', making her eligible for this ID, which targets individuals with disabilities. **Benefits:** This card serves as a universal identity and proof of disability, simplifying access to various government schemes and benefits. It eliminates the need for multiple documents. **Application Priority:** Apply for the UDID Card first. It's a foundational document essential for verifying disability status, which is often a prerequisite for accessing other schemes and concessions. 2. **Niramaya Health Insurance Scheme** **Why it matches:** This scheme specifically targets individuals with autism, which perfectly aligns with Anu's profile. **Benefits:** Provides comprehensive and affordable health insurance (up to ■1 lakh) for PwDs. It covers hospitalization, therapies,

diagnostic tests, regular medical check-ups, and more, offering crucial financial protection for health needs. *

****Application Priority:**** Apply for this ****second****, after securing the UDID Card. Health security is paramount.

3. ****Skill India Vocational Support**** * ****Why it matches:**** At 24, Anu is in an age group where skill development can significantly enhance her employability and independence. This scheme targets 'employment' and vocational training.

* ****Benefits:**** Offers various vocational training and skill development programs tailored to different abilities, improving job prospects and promoting self-reliance.

* ****Application Priority:**** Consider applying ****third****, especially if Anu is looking to gain skills for employment or enhance her career opportunities.

4. ****National Scholarship for Students with Disabilities**** * ****Why it matches:**** If Anu is pursuing or plans to pursue higher education, she could be eligible as a student with a disability.

* ****Benefits:**** Provides financial assistance for educational expenses, helping cover tuition fees, maintenance, and other costs, encouraging academic pursuits.

* ****Application Priority:**** Apply for this ****if and when**** Anu decides to enroll in higher education courses.

Structured Action Plan Roadmap

Task Check	Priority	Status
[] Apply for UDID Card	HIGH	PENDING
[] Schedule disability assessment	HIGH	PENDING

Challenge & Risk Projections

Based on AI predictive profile analysis, the following areas have been flagged:

Moderate sensory sensitivity. General visual schedulers and structured rooms will help maintain regulation.

High non-verbal expression support required. Recommend early integration of AAC (Augmentative and Alternative Communication) speech-generating programs and visual card boards.

Low institutional barrier detected. Routine structures are currently sufficient.

Moderate financial support need. Review combined central and state schemes for partial reimbursement.

Responsible AI Disclosure & Guidelines

Neuro Guard is an AI-powered diagnostic matching and informational support system. All recommendations, AI explanations, resource lookups, and risk predictions are generated via large language models and heuristics. They do not constitute official clinical diagnoses, medical advice, or legally binding governmental decisions. Users and caregivers must consult with certified medical practitioners, clinical psychologists, and official state/central authority boards (such as the National Trust, CBSE Board, or local Social Security departments) to execute formal applications and obtain official benefits certification.
